**Subject:** FOLLOW UP: (Outside Guests) - PEER re: Hunters Point Superfund Site  
**Attachments:** 8.24.21 Hunters Pt. EPA-OLEM Presentation.pdf

All,  
As a follow up, Attached is the presentation I just got that was used in the PEER/Hunters Point meeting today.  
Thanks,  
Nick

Nicholas J. Hilosky  
Acting Chief of Staff  
Office of Land and Emergency Management  
US Environmental Protection Agency  
ph: 202-566-1942; mobile: 202-368-0724

Attendees:

Jeff Ruch, [jruch@peer.org](mailto:jruch@peer.org). Jeff Ruch was the Executive Director of Public Employees for Environmental Responsibility (PEER) from 1997-2019 and previously served as its first General Counsel. He now serves as Director of Pacific PEER, headquartered in California, handling the organization's work in that state, as well as Oregon, Washington, Alaska, and Hawaii. Prior to that he was the Policy Director and a staff attorney at the Government Accountability Project representing whistleblowers from both the public and private sector. Before coming to DC, Jeff worked in the California Legislature for 17 years, principally as counsel to various committees where he drafted hundreds of laws on topics ranging from energy conservation to the rights of employed inventors. He has also served stints as a deputy district attorney and an appellate court clerk.

Daniel Hirsch, [danielhirsch558@gmail.com](mailto:danielhirsch558@gmail.com). Dan Hirsch retired several years ago from the University of California at Santa Cruz, where he was Director of the Program on Environmental and Nuclear Policy. He is President of the Committee to Bridge the Gap, an NGO that assists communities impacted by radioactive and toxic chemical contamination. He is lead author on a series of reports on the Hunters Point situation.

J. Michelle Pierce, [jmichellepierce@gmail.com](mailto:jmichellepierce@gmail.com). Michelle Pierce is Executive Director of Bayview Hunters Point Advocates, which engages in environmental justice advocacy for this vulnerable neighborhood. The Bayview-Hunters Point neighborhood of San Francisco has a notorious and longstanding history of broken promises, underscoring the need for an organized, unified voice that helps shape important public issues. Historically compromised health conditions due to poor air, soil, and water quality, along with crisis-level displacement pressures and under-employment, are our organization's primary areas of focus.

Dr. Kim Rhoads, [Kim.Rhoads@ucsf.edu](mailto:Kim.Rhoads@ucsf.edu). Dr. Rhoads' background and scholarly work spans the full cancer continuum including basic science research in cancer angiogenesis, clinical care as a colorectal surgeon, research on the quality of care and cancer disparities; training in health policy at Harvard and as the inaugural Philip R. Lee Fellow in Health Policy at UCSF. She has formal training in community organizing at the Center for Third World Organizing in Oakland, California; and Community Based Participatory Research training from the UCOP California Breast Cancer Research Program. Before returning to the faculty at UCSF, Rhoads founded the Community Outreach and Engagement program for the Stanford Cancer Institute. Rhoads views community engagement and institutional partnerships as substantive pathways to promote health equity and eliminate disparities.

Dr. Robert Gould, [rmgould1@yahoo.com](mailto:rmgould1@yahoo.com). Since 1989, he has been President of San Francisco Bay Physicians for Social Responsibility (PSR), an organization that works to protect human life from the gravest threats to human health and survival, including the threats of nuclear war and global warming. Dr. Gould has also been a member of the National Board of PSR since 1993, serving as President in 2003 and 2014. Dr. Gould is an Associate Adjunct Professor in the Department of Obstetrics, Gynecology and Reproductive Sciences at UCS, where he works as a Collaborator with the Program on Reproductive Health and the Environment (PRHE). From 1981 until 2012, Dr. Gould worked as a pathologist at Kaiser Hospital in San Jose, California.

Annemarie Charlesworth, [Annemarie.Charlesworth@ucsf.edu](mailto:Annemarie.Charlesworth@ucsf.edu). Annemarie Charlesworth, MA, is the Director of the EaRTH Center Community Engagement Core (CEC) at the University of California at San Francisco. Prior to the founding of the EaRTH Center, she was the Associate Director of the UCSF Environmental Health Initiative and Associate Director of the Clinical Outreach and Engagement Core of the UCSF Pregnancy Exposures to Environmental Chemicals (PEEC) Children's Center.

Dr. Tracey Woodruff, [Tracey.Woodruff@ucsf.edu](mailto:Tracey.Woodruff@ucsf.edu). Dr. Tracey Woodruff is Director of the UCSF Environmental Research and Translation for Health (EaRTH) Center. She is also the Director of and Alison S. Carlson Endowed Professor for the Program on Reproductive Health and the Environment (PRHE) and is a Professor in the UCSF Department of Obstetrics, Gynecology and Reproductive Sciences and the Philip R. Lee Institute for Health Policy Studies. She is a recognized expert on environmental pollution exposures and impacts on health, with a focus on pregnancy, infancy and childhood, and her innovations in translating and communicating scientific findings for clinical and policy audiences. She is also the co-PI for the UCSF/University of Illinois pediatric cohort of the NIH Environmental Influences on Child Health Outcomes (ECHO) award. Before joining UCSF, Dr. Woodruff was a senior scientist and policy advisor for the U.S. EPA's Office of Policy.

Alex Dodd, [addodd@ucsc.edu](mailto:addodd@ucsc.edu). Alex Dodd is an assistant to Dan Hirsch and will help with the Powerpoint presentation.
